

UNLEASHING CREATIVE GENIUS... ONE CHILD AT A TIME

This summer, invest in the skills that will help your child achieve his or her full potential throughout the school year. Nonprofit Invent Now Kids' premier program, Camp Invention, is a weeklong adventure in creativity. Led by qualified educators, this exciting program is being hosted by Olde Creek Elementary this summer for children **entering grades one through six**. The Camp Invention program is a unique opportunity for your child to experience hands-on learning through FUN activities that will stay with them for years to come.

This year's brand new INNOVATE program features:

Power'd™

It's alive! In a secret lab, build your own motorized creature and bring it to life while helping a mysterious scientist harness the power of nature.

Hatched™

The *Hatched* online virtual world is disappearing! Help save the avatars by creating, marketing, and selling goods in this extraordinary marketplace.

SMArt: Science, Math & Art™

What do soap bubbles, honeycombs, and lightning bolts all have in common? Explore their surprising connections in the Pattern Kingdom.

I Can Invent III™

Take apart a broken machine and see what's inside. Then use its gears, guts, and gadgets to invent a machine that's never been seen before.

Global Games™

Explore soccer and other sports as they were first played in ancient times. Add your own twist, get out of your seats, and get ready to play!

Register with a friend to both receive \$25 off!
